LANDSCAPE FULLVIEW ELECTRIC FIREPLACE

LFV2-40/15-SH
LFV2-60/15-SH

The Landscape FullView built-in electric fireplace is the first of its kind creating a perfect substitute for a linear gas fireplace. This unique frameless design allows for edge to edge flame presentation as well as unlimited surround capabilities. Available in 5 different lengths for any application as well as 3 customizable flame bed options for different fit and finishes. An optional 2 stage heater is also included for supplemental heat up to 450 square feet.

ELECTRIC FIREPLACE

LFV2-80/15-SH
LFV2-100/15-SH

The Landscape FullView electric fireplace is changing the way the industry views built-in electrics. With 5 different convenient sizes there is sure to be a size that fits your residential and commercial needs. The Landscape FullView direct wires in to a standard 110 V 15 Amp electrical circuit, requires no additional venting, costs only pennies a day to operate, and comes in at 1/3 the cost of a comparable linear gas fireplace.

ELECTRIC FIREPLACE

LFV2-120/15-SH

The LFV2-120/15-SH 120" Landscape FullView is the largest built-in electric of its kind. Modern Flames already produces the largest linear electric and now we have the largest linear built-in. This unit operates on the same electrical power supply as the others and still requires no additional vent. This unit easily installs into any framed wall and allows for any type of wall covering. Continue to explore the possibilities with Modern Flames Landscape FullView Built-in Series.

TOUCH SCREEN TECHNOLOGY

Directly below the flame on the right hand side you will find a series of touch controls. The 3 stacked icons (in order) operate the power, heat (on/off) and light intensity. Hold the light intensity for 5 seconds to change the back screen color from orange to blue. To the right of the stacked icons you will see a digital readout with arrows on the top and the bottom. The digital readout indicates the temperature the thermostat is set too. Touch the arrows above or below the digital readout to increase or decrease the set temperature. All touch controls fade to black after 4 seconds.

REMOTE CONTROL

Separate control for on/off variable heat and variable flame
